City-Wide Fee Schedule - Fees, Fines, Rates, and Charges

SECTION 240: Waiver/Credits

| # | Service Category | Service Type | Current Fees | Effective Date |
|---|------------------|--------------|--------------|----------------|
|---|------------------|--------------|--------------|----------------|

1) Waiver/Credits

The Hesperia City Council and Board of Directors for the Hesperia Fire Protection District, Hesperia Redevelopment Agency and Hesperia Water District have adopted the preceding fee schedule to reasonably recover costs necessary to provide various services. As such, fee waivers/credits are not usually anticipated. However, it is understood that exceptions to the regular procedure may arise. The City Council and Board of Directors specifically authorize the City Manager or his/her designee to approve fee waivers, fee reductions, and/or issue credits to customers up to a total amount of \$5,000 per occurrence. This authorization shall apply to all adopted City fees, exclusive of any adopted Development Impact Fees or any other fee that is not able to be reduced as a matter of law. Furthermore, the City Manager or designee is authorized to waive fees/issue credits under the following circumstances:

- Failure of the District's water system, which results in an incorrect water meter reading.
- If the water delivery system becomes contaminated, fee/rate waivers are approved for all customers affected by such contamination.
- For the deposit required after the first time turn-off for non-payment as long as the customer signs a statement agreeing that the deposit waiver is only offered one time and, as such, if the customer is turned off again, the customer will pay all fees and charges.
- If a bank error caused a non-sufficient funds (NSF) check to be returned to the District, a waiver of the NSF charge is approved upon submission of proof by the customer from the bank that it was at fault.
- If the customer is able to provide proof that an incorrect billing has been made due to a service reduction at the customer's property.

On April 2, 2013 the City Council approved a Development Impact Fee (DIF) reduction for single family residential permits within existing recorded subdivisions/lots. This reduction was set to occur for 18-months, and must be for a valid permit. The City Council extended this reduction on September 16, 2014 and March 15, 2016, and it is now valid until further notice and approval by the City Council. The amount reduced is \$2,957 in City DIF, and \$2,573 in Water Facilities DIF (for ¾" meters). For larger meters please contact the Engineering division. The Hesperia Recreation and Park District has similarly modified their DIF as noted in Appendix A.

The City Council and Boards of Directors retain the sole authority to waive fees/issue credits above the City Manger's designated amount and require that waivers must be based on cause. Prior to waiving a fee, the applicant shall specify, in writing, the nature and extent of the fee waiver request and submit it with a deposit of \$50 to the City Clerk. Public entities need not submit the \$50 deposit. The deposit amount will be returned should the fees be waived. The City Clerk shall schedule the item for the next available meeting of the City Council or Board of Directors to which the request applies. Examples for which waivers may be considered would be fees for civic events or programs and fees for facilities providing community wide services. The City Council and/or Board of Directors shall decide based upon the merits of the request and their decision shall be final.

The City Manager is authorized to reduce or waive adoption fees as necessary to further the goal of adopting suitable animals from the animal shelter.

Appendix A - Development Impact Fees

(Effective April 2, 2022)

Fees for development permits (e.g., building and grading permits) shall be the fees in effect at the time of issuance of such permit.

| Development Impact Fees | | | | | |
|-----------------------------------|---------------------------|-------------------------------------|--|---------------------------|------------------------|
| Facility | Single-Family Residential | Multi-Family Residential (Per Unit) | Commercial/ Office/Retail (Per 1,000 SF) | Industrial (Per 1,000 SF) | Hotel/Motel (Per Room) |
| Fire Suppression | \$648.00 | \$491.00 | \$187.00 | \$908.00 | \$437.00 |
